

ARNOLD CLC CORE PROGRAM

October 2014

Now that students and staff are in the swing of things, we are diving into fall! Our kindergarten through second grade group will be finishing up their unit on nature in the next few weeks. They have been focusing on insects and bugs. Third through fifth grade has been focusing on space and living in space. They participated in astronaut training and created their own planets!

Be sure to say hello to our new staff, Van and Nick! With the addition of more staff we are working towards separating into three groups. This will allow staff to create lesson plans more focused on the students and their individual learning levels.

During before school care we will begin using SPARK, a healthy living program that emphasizes physical activity and exercise.

If you have any questions, please don't hesitate to give us a call. Our cell phone on site that is only answered during program hours is (402) 560-2582. You can also reach us at the Air Park Neighborhood Center (402) 441-7876.

Because our after school program visits the school playground from time to time when the weather permits, and it's a long walk for you to and from Door #10, we'll be placing a bright **GREEN** piece of construction paper outside door Door #10 identifying the times when ALL our youth are on the playground. If you see the paper displayed outside, you can proceed to the parking area on the Northeast side of the building to pick up your youth.
